Subject: [EXTERNAL] NO to Byhalia Connection Pipeline

Hello,

I was told to send an email to this address regarding public comments to the proposed Byhalia Connection Pipeline in southwest Memphis. As a Memphis resident, I firmly reject this proposal due to the fact that it will jeopardize the health of already vulnerable residents of the Boxtown neighborhood and surrounding areas. Secondly, the company proposing to build the pipeline has not sought a permit to interrupt or in any way affect the Memphis aquifer - Memphis' source of drinking water and perhaps our most precious natural resource.

To build this pipeline would be at best a gross continuation of environmental racism, and at worst a monumental, fatal mistake not unlike the failures of Flint, Michigan. I implore this company to cease moving forward with this project or AT LEAST find another route where there are not vulnerable lives and precious resources so supremely at stake.

Thank you.
